was born and the generation of life and the evolution

One day, a ring was found
resting in the water.

It was a ring with a single stone.

It was a ring with a single stone.

It was a ring with a single stone.

But now,

the only record of their existence

A dragon...

As a Rymer,

you are able to control
and create

any dragon's
power.

You have the ability to
determine the power of
the orboids, as well as place
any restrictions on it.

Now could even
say that it is the
greatest honour that
could be given to a
life form.

WOULDN'T YOU AGREE?

Please don't
mention the
topic.

Why did you
call me here so
late at night?

What do you
want from me?

What do
I want?
you child?

I cannot help
my curiosity.

What does the
Ryuuza want?

No, that is just an excuse.

I want to know why you want that information.

I want to know.

what you really want.

I want you to tell me.

I don't know why you want to know, either.

Doesn't you think that if I never never about the person I am serving?

I would be able to never know in your mind if you still didn't know that what you could do know by yourself?

It's not like I became a Dragon because I wanted to...

I can take advantage of this!

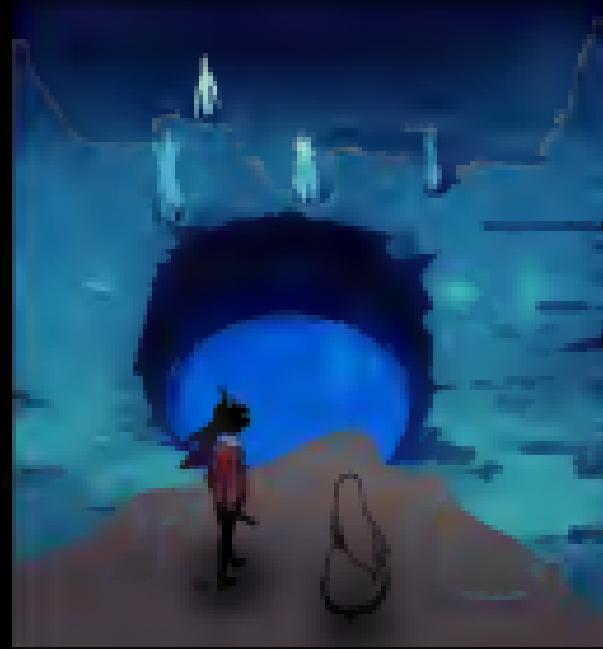

She knows nothing and does not appear to have any ambitions.

I had been taking my anger out on you who really didn't know anything.
I sincerely apologize for that.

We have been studying the Dragon Abilities for a long time, but any information regarding them is highly classified.

It's like I have to do something nice or even nice to...

I cannot disclose any information until I know I can trust you not to need to do something for me.

Usually they stay in the mountains but in recent years they've been coming to the forest.

There's something the hooded ones and the seven have been doing.

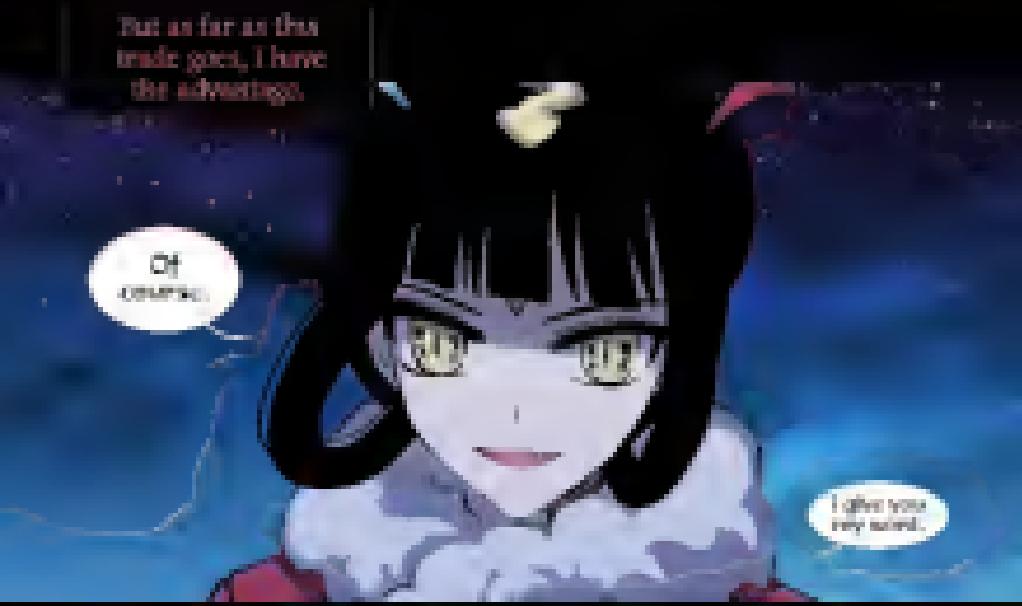

In exchange
I'll have you have
mine. Ms. Karm.

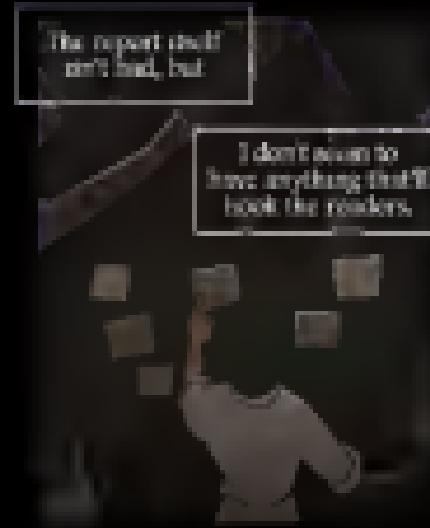

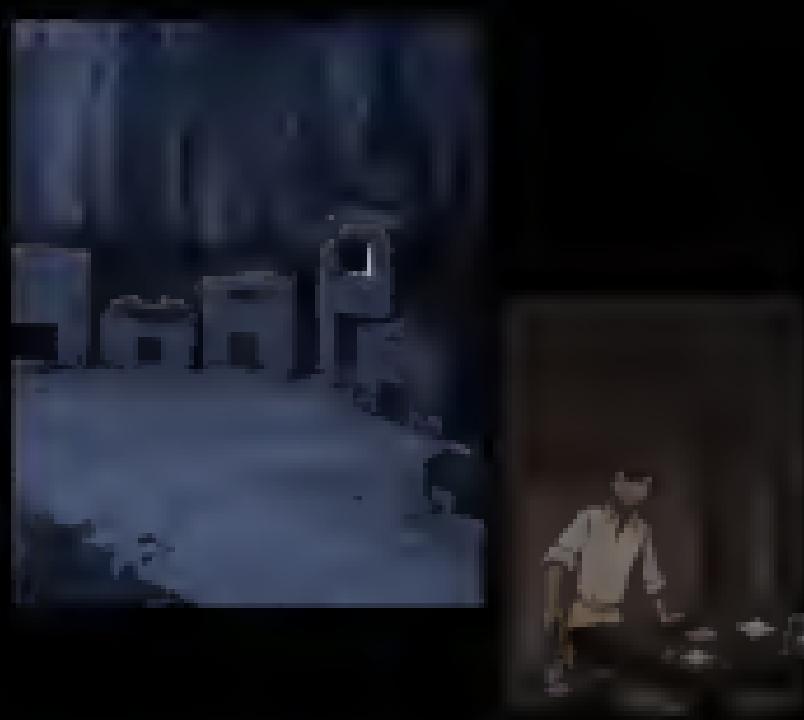

But as far as this trade goes, I have the advantage.

I shall use you...

...and turn you into a puppet that I can control freely.

These gold
stones would've
been a big hit.

...but I haven't
seen them since.
